Professional Experience

Freelancer

2023-2024

- Throughout my freelancing journey, I completed multiple projects, primarily using React and Express. I delivered high-quality, scalable solutions to clients, ensuring that each project met their specific requirements. My efforts have been rewarded with consistent payments and positive client feedback, reflecting my commitment to excellence.

Projects

Codegod – Leetcode style platform | [Live](#) | [Github](#) | 100+ signups JUN-2025

- Built a full-stack coding platform to master DSA and coding interviews, featuring a Monaco-based editor, AI-powered
- Developed features like daily streaks, discussion forums, and personalized dashboards with progress tracking, enhancing user engagement and learning continuity.
- Engineered a modern, responsive, and interactive frontend using React and Framer Motion, enabling users to track submissions, view solutions, and compete in timed challenges.
- Tech used – React, Express, PostgreSQL, Prisma ORM,

Docwise – Chat with docs RAG app | [Github](#) OCT-2025

- Developed an intelligent document-chat platform that ingests PDFs, DOCX, and CSV files, transforms them into vector embeddings with LangChain, and enables users to ask natural-language questions with accurate, citation-backed answers.
- Implemented a complete RAG (Retrieval-Augmented Generation) pipeline using OpenAI embeddings and Qdrant vector database for semantic search, improving contextual answer relevance by 90% over keyword search.
- Engineered secure, multi-user chat infrastructure with Clerk authentication and Supabase storage, allowing users to maintain personalized chat histories, upload private documents, and retrieve contextual insights instantly.
- Tech used – Next.js, LangChain, OpenAI API, Qdrant, Supabase, Clerk, shadcn/u

Skills

Languages : JavaScript, TypeScript, HTML, CSS, C++, Python

Frameworks & Libraries : React.js, Next.js, Node.js, Express.js, Redux Toolkit, Zustand, Tailwind CSS

Databases & ORMs : MySQL, PostgreSQL, MongoDB, Graph Databases, Qdrant, Pinecone, Redis, Valkey, Prisma, Drizzle ORM

DevOps & Tools: Docker, Git, GitHub, REST APIs, WebSockets.

AI/ML & LLMs : LangChain, OpenAI, Gemini, Prompt Engineering, RAG, AI Agents, Agentic AI, Voice Agents, Memory, MCP

Education

Hirachand Nemchand College of Commerce ,

2022-25

Bachelor of Computer Applications GPA-7.57

Pune Cambridge Institute of Management and Computer Application,Pune

Masters of Computer Application (Pursuing)
